Project Update
Edson Healthcare Centre

Overview

- The new $186.4 million Edson Healthcare Centre will include a variety of health services including acute care, continuing care, primary health care and community health programs.
- The new health facility will provide improved access to emergency services, outpatient care and renal dialysis.
- Shared space and co-location of various health professionals in the health centre will support a robust primary care model and bring a whole care team to individuals and families in one location.
- Project includes 24 acute care beds and 76 continuing care beds.
- Construction of the Edson Healthcare Center is expected to be completed in late 2015 and the continuing care building is expected to be completed in 2016.

Hospital services:

- Emergency department
- Outpatient services
- Surgical services
- Physician clinic space
- Diagnostic imaging and laboratory services
- Acute care
- Renal dialysis unit
- Primary health care services
- Continuing care

Construction Update

- Construction activity on the Edson Health Care Centre is moving forward and construction is scheduled for completion in late 2015.

Clinical Building

- The building envelope work which includes the roof, brick, phenolic panels (outide of the building), windows, and doors, is scheduled for completion in the spring of 2015.
- The Interior fit-out, mechanical and electrical work has commenced and will continue until late 2015.
- The elevator installation has started, and is expected to be completed in the spring of 2015.

Continuing Care Centre

- Slab on grade is complete.
- Structural steel work is underway.

What will be happening in 2015?

- Continue and complete the interior fit out of the Clinical Building until late 2015.
- The building envelope for the continuing care building will get underway early winter 2015. The interior fit out will commence after that, with completion set for the spring of 2016.
- The remaining site works will be completed this spring (2015).
- The Inter-Professional Clinic is progressing through detailed design phase.
