Section 00 72 00
General Conditions of Contract

Changes made in this Section Update (2017-06-09):

1. 1.2.1 – grammatical correction
-

Changes made in this Section Update (2017-02-22):

1. Resolved duplicate paragraph numbering in document.
-

Changes made in this Section Update (2015-08-20):

1. 1.1.5 - Contract Documents – order of precedence list was revised.
2. 1.1.8 - Responsibility for printing and providing Contract Documents was revised.

The type of General Conditions to be used on a given contract will depend on the following:

1. Nature of the Work (complexity, potential for disputes etc.)
2. Contract Price (estimated cost).
3. Contract Time (duration).
4. Whether or not security is being specified.
5. Project location (region, site and adjacent property).
6. Likely type of Contractor and types of major Subcontractors.
7. Special contractual conditions and arrangements (eg. multiple prime contracts, etc.).
8. Special staging and scheduling requirements.
9. Other special contractual and administrative requirements.
10. Other risk factors.

Normally use this BMS Section 00 72 00 for building construction and renovation contracts whose estimated cost is \$100,000 or greater. For contracts under \$100,000, use of SPMS Section 00 72 14 - General Conditions should be considered and, if determined to be appropriate, used.

This Section is not intended to be edited. It should be used as is, in its entirety. Any required modifications must be made by means of Supplementary Conditions. If Supplementary Conditions are deemed necessary, discuss with Infrastructure, Procurement Branch.

This BMS Section 00 72 00 - General Conditions of Contract does not include definitions, payment conditions or insurance conditions. Always use BMS Section 00 71 00 - Definitions, Section 00 73 80 - Payment Conditions and Section 00 73 16 - Insurance Conditions in conjunction with this Section.

Ensure that Division 01 - General Requirements is coordinated with the General Conditions of Contract to avoid duplication and conflict.

- .1 The Province shall be, in the first instance, the interpreter of the requirements of the Contract Documents, and the judge of the performance thereunder by the Contractor. Interpretations and decisions of the Province shall be consistent with the intent of the Contract Documents.

4.2 CLAIMS

- .1 If the Contractor intends to claim any additional payment, or if the Province intends to make a claim against the Contractor for an adjustment in payment other than permitted under the Contract, the claimant shall give notice of its intention to the other party as soon as possible and not later than 7 days after the event giving rise to the claim first arises or the claimant first becomes aware of such event.

- .2 Failure to serve a notice of claim within the prescribed time period will prejudice the claimant's right to proceed with the claim, unless the claimant can demonstrate that such delayed notice did not prejudice the other party's ability to take measures to minimize any additional costs arising from the claim.
- .3 Upon occurrence of the event referred to in Article 4.2.1, the claimant shall take all reasonable measures required to mitigate any loss or damage which may be incurred as a result of such event.
- .4 Upon occurrence of the event referred to in Article 4.2.1, the Contractor shall keep such contemporary records as may reasonably be necessary to support any claim he may subsequently wish to make, including records of time and cost relating to labour, products, construction equipment and other resources used in the work. The Contractor shall permit the Province to inspect all such records and shall supply him with copies thereof as and when the Province so instructs.
- .5 Within 14 days, or such other reasonable time as may be agreed by the Province, of giving notice under Article 4.2.1, the Contractor shall send to the Province an account giving detailed particulars of the amount claimed and the grounds upon which the claim is based.
- .6 Where the event giving rise to the claim has a continuing effect, such account shall be considered to be an interim account and the Contractor shall, at such intervals as the Province may reasonably require, send further interim accounts giving the accumulated amount of the claim and any further grounds upon which it is based. In cases where interim accounts are sent to the Province, the Contractor shall send a final account within 14 days after the end of the effects resulting from the event.
- .7 The parties shall make bona fide efforts to resolve a claim as soon as possible after receipt thereof. When a party in receipt of a claim issues its final written position on the claim or fails to do so within a reasonable period of time, and the claim is not resolved to the satisfaction of both parties, the claim shall be considered a dispute and shall be settled in accordance with Article 4.3.
- .8 The Contractor shall be entitled to have included in any progress payment such amount in respect of any claims as the Province may consider due to the Contractor. If information is insufficient to substantiate the whole of the claim, the Contractor shall be entitled to payment in respect of such part of the claim as such information may substantiate to the satisfaction of the Province.

4.3 SETTLEMENT OF DISPUTES

- .1 If a dispute of any kind arises between the Province and the Contractor in connection with, or arising out of, the Contract or the execution of the Work, whether during the execution of the Work or after its completion and whether before or after repudiation or other termination of the Contract, the matter in dispute shall be settled in accordance with the processes identified in the document entitled "Dispute Resolution Process for Government of Alberta Construction Contracts", Appendices A, B, C, D, and E.
