

Project Update

Edmonton Clinical Laboratory Hub

Schematic Design Concept for Edmonton Clinical Laboratory Hub

Overview

- An important part of Alberta's lab services is the construction of a clinical laboratory hub in Edmonton that will provide laboratory services for Edmonton and northern Alberta.
- The Edmonton Clinical Laboratory Hub will be built on government land, located near the University of Alberta's south campus, close to the LRT and public transit.
- This world-class facility is a cost-effective, collaborative and efficient model that will bring together similar diagnostic services and research under one roof.
- Construction is expected to begin in 2019 and be completed in late 2021.
- The project is expected to be operational by the spring of 2022.
- The project is currently in the design phase.

Next Steps and Upcoming Activities

- Schematic design was completed in June 2018.
- Design Development is underway and will be completed in the fall of 2018.
- Continued consultation with the surrounding community leagues and a public open house will be held in the fall of 2018.

August-October 2018
